Financial Boot Camp: Lesson 5

Identity Theft and Intro to Giving

We'll start this class by briefly addressing the dangers of identity theft. We'll explore what it is, how it happens and how you can best protect yourself from this danger.

We will then turn our attention to giving. It's important to have a complete understanding of why, what, where and how we give. In this introduction to giving, we'll look deeper into the reasons why we give and where scripture says it should be directed.
